

evo-1.1.150

Description: Lactate Dehydrogenase 150, NAD-dependent, bacterial

Catalyzed reaction:

Source: *E. coli*, recombinant

Ability to regenerate cofactors:

evo-1.1.150 can be applied in the regeneration of NADH:

12 U/mg (partially purified enzyme)

Properties: oxidation: pH_{opt}: 7.0, T_{opt}: 30°C
